

Brilliant Technologies for your Pool & Spa

**Finally an effective, dependable,
100% chlorine-free system.**

Introducing UVTECH®: Unleashing the power of ultraviolet rays in a fully automated water treatment process, now that's hands-off swimming pool and spa care! The UVTECH system runs 100% chlorine-free, protecting your investment but most importantly your health. Combined with UV-Shield®, a uniquely innovative formula administered automatically according to your pool or spa size, the UVTECH system finally relieves you from the most daunting task of all: keeping water safe and clear with minimum intervention and no harsh chemicals. The UVTECH system puts an end to odors, faded bathing suits, dry skin and hair, and all forms of irritations; plus it solves all corrosion issues.

Chlorine, salt, bromine are ways of the past. Dive into the blue wave and enjoy swimming like never before by treating yourself to soft, comfortable, crystal-clear water.

Visit www.uvtech.ca for a complete introduction to the UVTECH system.

Clean, Safe,
Comfortable Water

Advantages and Benefits

- 100% chlorine-free, no harsh chemicals
- Total destruction of algae, bacteria and viruses
- Elimination of eye, sinus and skin irritation
- Odorless, crystal-clear water
- No more faded, bleached-out bathing suits
- Quick and easy installation, reduced pool maintenance
- Fully automated system
- Respects the environment:
 - UV-C rays: Concealed in the stainless steel chamber
 - UV-Shield®: Natural elimination, gentle ingredients, no chemical residue.
- No weather dependence (storms, rain...)
- Does not affect the pH level
- 10% to 50% operational cost reduction

The UVTECH edge on other sterilization methods

| | UVTECH | Chlorine and derivatives |
|--------------------------|---|---|
| Safety | <i>Risk free</i> | <i>Health hazards</i> |
| Maintenance and handling | <i>No special training Automated system</i> | <i>Training required Accidents may occur</i> |
| Public opinion | <i>Very favorable</i> | <i>Complaints, irritation uncomfortable</i> |
| Taste and odor | <i>None</i> | <i>Perceptible even in small doses</i> |
| Residues | <i>None</i> | <i>Present</i> |
| Sterilization | <i>Immediate, constant 100% sterilization</i> | <i>30 min. after contact, sterilization decreases with time</i> |
| Bacterial removal | <i>Complete</i> | <i>If proper dosage</i> |
| Virus destruction | <i>Complete</i> | <i>Average performance</i> |

Conclusion? Crystal-clear, safe, comfortable pool or spa water.
