

It is an easy to use dosing system composed of a control instrument and a solenoid dosing pump.

This system is the right solution to control pH or Redox (ORP) in those applications where it is required to dose up to 5 bars pressure.

- User-friendly display and Keyboard interface for easy programming
- Password protection for programming menu
- Relay output for remote alarm
- FWM (fREQUENCY width Modulation) proportional dosing

<b>Dimensions (H – W – L)</b>	<b>234x162x108 mm</b>
